Abstract

There is no doubt that the petroleum contracts represent the most important types of contracts concluded by the State with the foreign private persons, which is called the state contracts. The importance of these contracts appears in many ways, as it's the cornerstone on which to build the annual budget in the majority of the petroleum producing countries in the Middle East. And also the subject of these contracts, which the petrol and its derivatives, it was still the main cause of the development in various aspects of life.
